- 1. Nuremberg Tribunal Sets Forth the Whole Picture of the Unprecedented Crimes of Hitler's Adherents.**

(The Soviet representative stated that he firmly believed that the criminals sentenced by the Tribunal had fully deserved their sentence. At the same time considered it his duty to point out that he fully shared the opinion of General Nikitchenko, U.S.S.R. representative on the Tribunal, that there were sufficient grounds to convict Papen, Schacht and Fritzsche and to pass death sentence on Hess, - also to recognize as criminal organizations of Hitler's Government, General Staff and Supreme Military Command, mentioning certain of their activities.

- 2. Japanese Aggressors Recognize their Responsibility do not Admit their Criminality.**

(Speech by S. A. Golunsky, U.S.S.R. prosecutor in the International Military Tribunal at Tokyo to the effect that the Soviets can furnish proofs of the Japanese intention to attack the Soviet Union in the summer of 1945 and to include the whole of the Eastern Siberia in the "Great East Asia", - and are also able to supply documentary evidence that all of the Soviet territory, which would not be absorbed by Germany, would be absorbed by Japan, that the Soviets can produce plans from which it may be seen how the Japanese intended to apply in practice their racial theory etc., - that their aggressive intentions were aimed not only against the Soviet Union but also against the U.S.A. and U. K., that the Japanese cannot be exculpated because they have not actually carried out their plans and it was quite evident that they would do so if they had succeeded in the war.

4. Not Reparations but Return of Property is Basis for Economical Reconstruction of Hungary.

(Ph. Guseff, representative for U.S.S.R. at the Paris Peace Conference made a statement to the effect the U.S. were trying to relieve the situation in Hungary at the expense of the Soviet Union and Czechoslovakia by decreasing reparations due them from U.S. \$ 200,000,000 to 200,000,000.- whereas the Soviets consider that the only basis on which the economical reconstruction of Hungary can be effected is by returning property taken from them by the Germans and now in that part of Germany and Austria which is under American control. Czechoslovakia is also not in agreement with the American point of view.

**GRAND "PRINCIPLES" FOR EUROPE AND HARD LIFE AT HOME...**  
"Izvestia" re: Double Policy of England and the United States  
regarding human rights.

Moscow 13. (Reuters) "Izvestia" published an article yesterday  
by the writer Vronsky, entitled "Racial Differences in America".  
It states: -

There are many politicians and political leaders in England  
and America, who talk of the principles of the Atlantic Charter  
when other countries are concerned.

As for example, the Australian Delegate at the Peace Con-  
ference offered to create a "European International Palace of  
Human Rights".

Showing special interest to European countries, these  
clients of the Anglo-Saxon countries actually interfere in  
the affairs of sovereign countries.

At the same time they preserve full tranquility regarding  
the fate of the Hindoes' minority in British South-African  
Dominion, or in the British Colony of Kenya. Equally tranquil  
are they with regard to the Negro situation in the United States.

To the latter the writer adds:

In spite of all protests from progressive circles in the  
United States, the situation of the Negroes, especially in the  
Southern states, remains very burdensome.
